

Ready-to-Quilt Training Panels by Pattern Jam

Why a Ready-to-Quilt Panel?

There is significant demand for beautiful ready-to-quilt panels.

Here's why:

1. A quilter wants to learn to quilt (either on a longarm or domestic machine) — Using a panel enables her to practice techniques on a top that didn't require hours of piecing.
2. A longarm educator can teach techniques on a custom panel that didn't require hours of piecing.
3. A quilter doesn't want to spend time piecing a quilt as a gift for someone that won't appreciate the labor that goes into a pieced quilt.

Features:

- 54" x 68" whole-cloth quilt tops
- Clearly marked quilting lines to easily teach sewists the art of free motion quilting. The lines go from solid to dotted, then disappear so sewists get the feel for the shapes and techniques of free-motion quilting.
- 12 traditional quilt blocks in vibrant colors
- Easily model an in-store event around a free-motion quilting class

Response from Quilters about Pattern Jam Ready-to-Quilt Panels

"I received my first order today and was so happy with the quality I placed my second order today! I look forward to purchasing future quilts and patterns. Thank You!"

"... I've been feeling so guilty and knowing that I will not have an opportunity for quilting with a now 3 month old, I turned to you! You did not disappoint! The quality is amazing -- I can safely say I may never make another quilt again!!"
