- With the right sides together, cut diagonally from the top to the bottom corner.
- Sew a triangle to each top corner of the block, matching the top of the hexagon. The triangles will extend past the side of the center point.
- Press toward the triangles.
- Sew a triangle to each bottom corner, matching the bottom of the hexagon.
- The narrow end of the triangles will overlap the top triangles.
- Press the seam allowance toward the triangles.
- Trim the block to 6 1/2".
