

# Reverie Quilt

QUILT DESIGNED BY MAUREEN CRACKNELL

This project tutorial is for my Reverie Quilt pattern that features prints from my Nightfall collection and the Playground collection for Art Gallery Fabrics. A combination of simple half square triangles and patchwork reveal a beautiful quilt design! Quilt blocks sew up quick to a cute 9.5" unfinished square, a wonderful size for making both small and large quilts!

**FINISHED QUILT SIZE** | 64" x 72"

**Janome Supplies Required:**

- Horizon Memory Craft 15000

**Fabric and Materials Required for making this quilt:**

- you will need a fat quarter (18" x 22") piece of each of the fourteen fabrics shown below for making half square triangles (HSTs)
- -- cut TWO 11" squares from each fat quarter piece of fabric

- you will need a fat quarter of each of the fourteen fabrics shown below for patchwork squares
- -- cut EIGHT 5" squares from each fat quarter piece of fabric

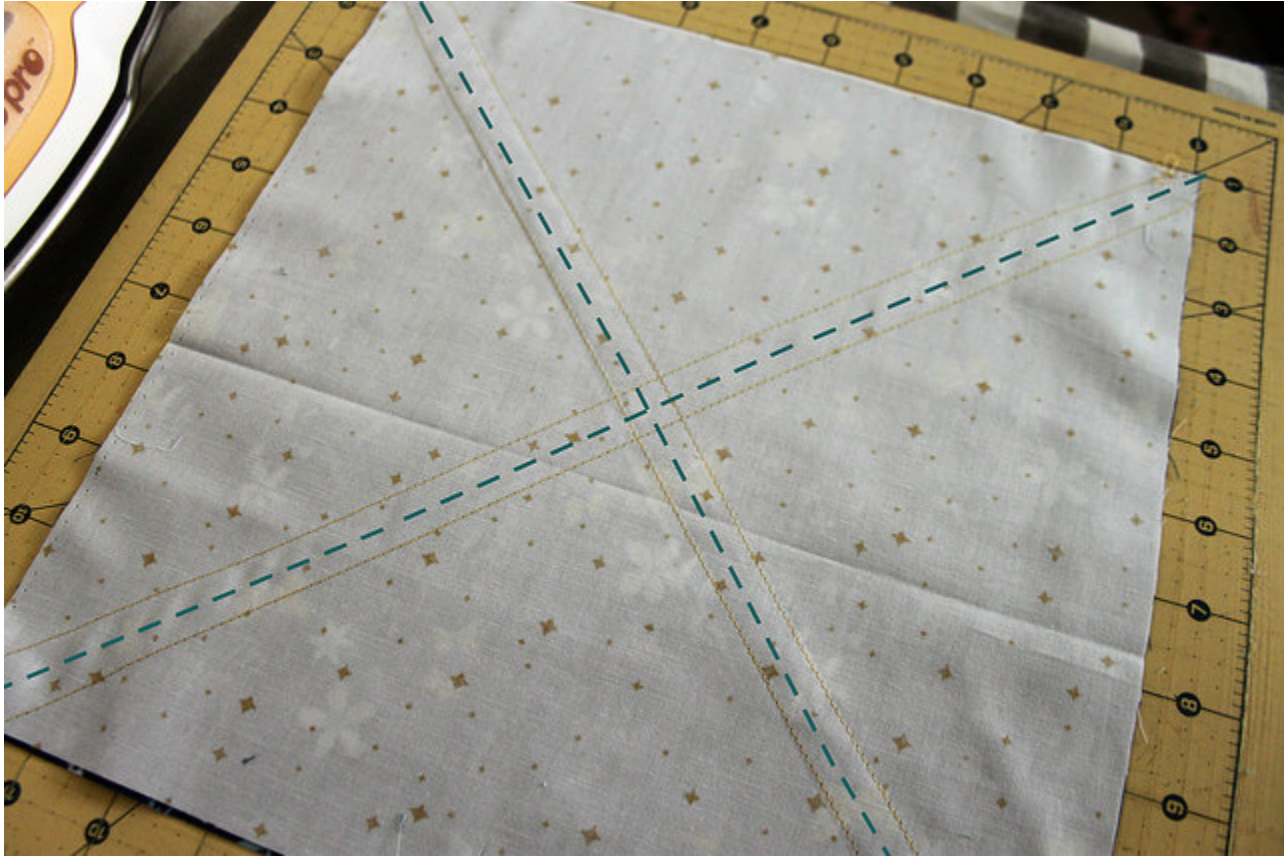

- thread
- rotary cutter/mat/ruler set

HSTs will be made using the "make eight at a time" method I share below to use towards making Reverie quilt blocks.

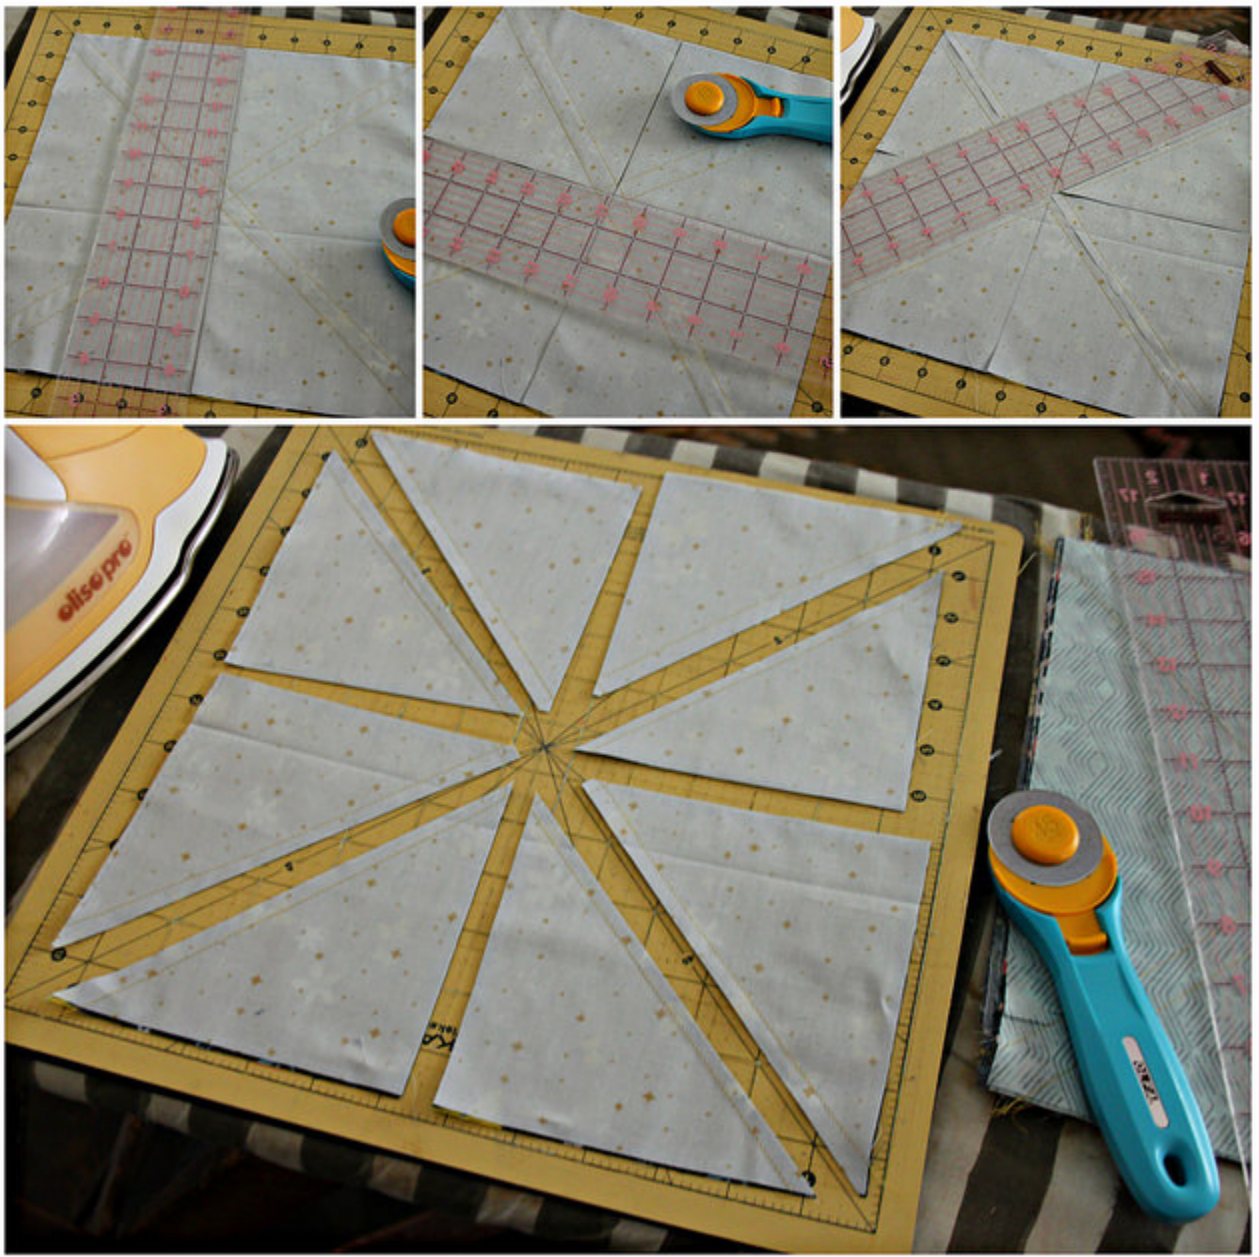

## How to Make HSTs for a Reverie Quilt Block ::

1. Begin by choosing two 11" cuts of fabric (Use the fabric swatch photo above that includes the prints for making HSTs) Place two fabrics right sides together and draw a line diagonally from one corner to the opposite corner making an "X." Pin the fabrics together to avoid shifting (optional), and sew 1/4" from either side of the marked lines

2. Use a ruler to cut a vertical line through the center of the fabric, then cut a horizontal line the same way. You should now see an “X” (with stitch lines) and a plus sign. Use a ruler and rotary cutter to cut along the marked lines to yield eight HSTs.

3. Open your HSTs and press the seam with an iron. I like to press my seams open, so they stay flat in the finished quilt block, or I press seams toward the darker fabric. Trim as needed to measure 5" on all sides.

Continue making 5" HSTs using the "make eight at a time" method, pressing seams and squaring up as needed.

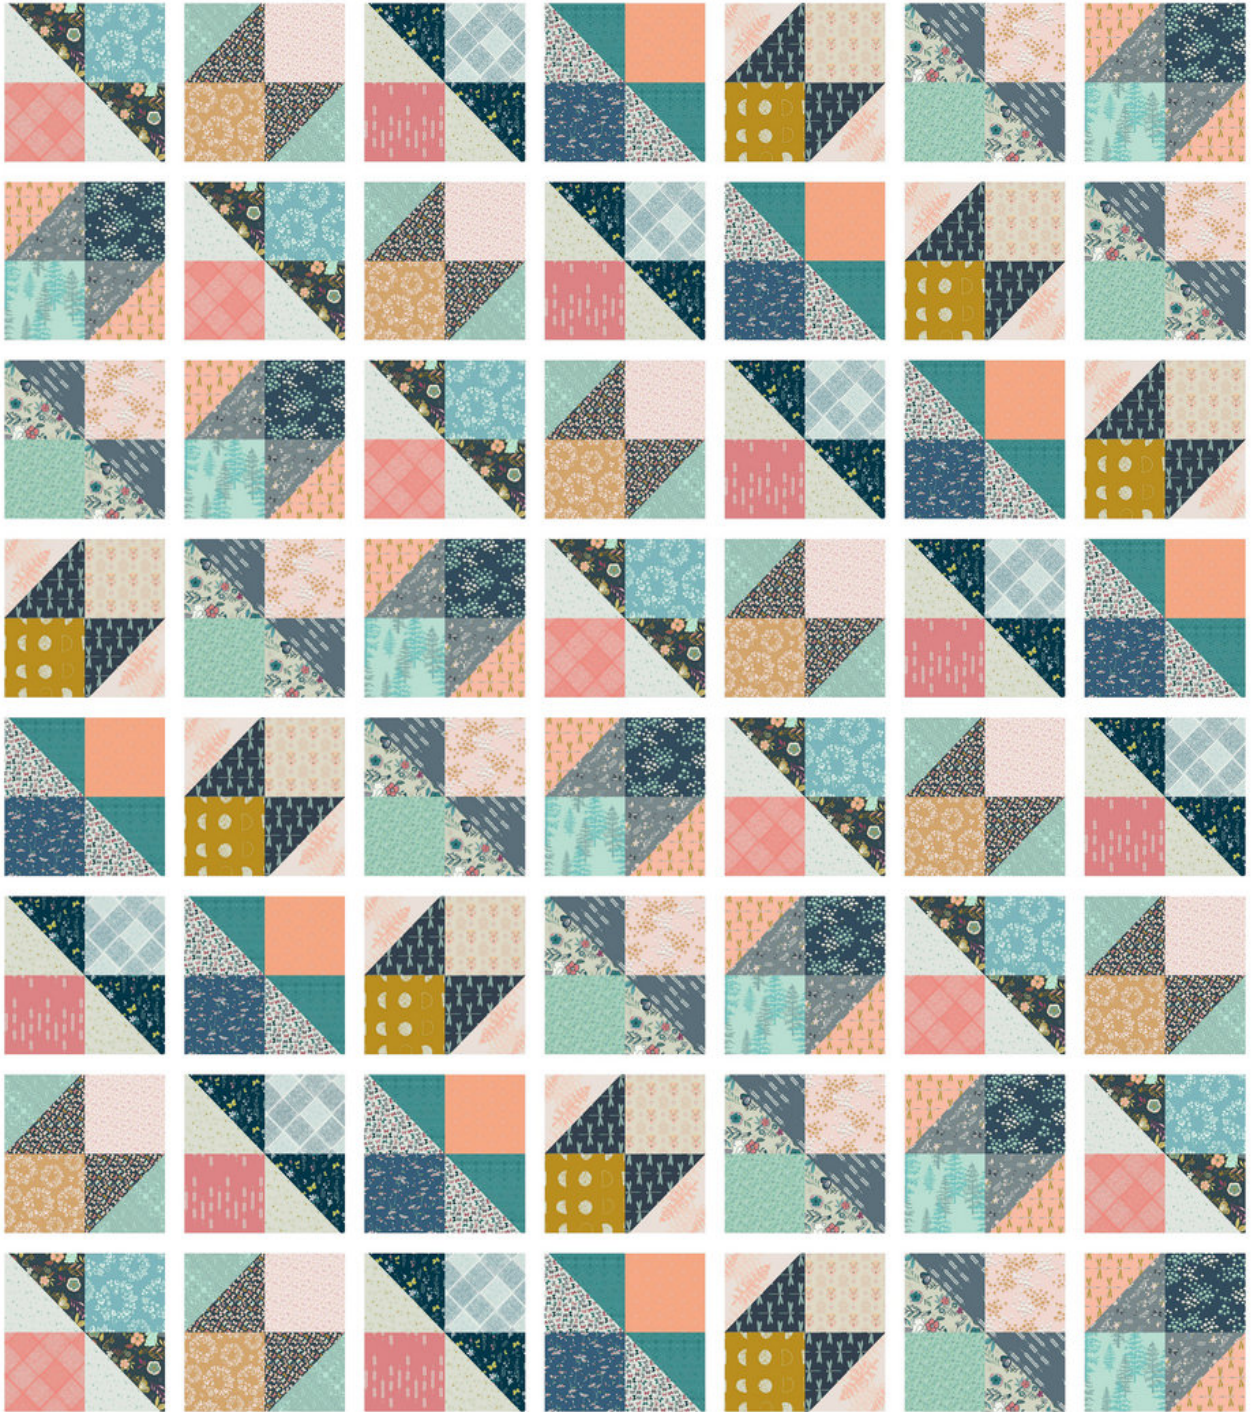

## Assembling Reverie Quilt Blocks : :

1. Each block consists of two - 5" HST and two - 5" patches of fabric

2. Using a 1/4" seam allowance throughout, begin by sewing one 5" HST and one 5" patch together. Repeat, alternating HST and fabric patch placement, then sew the two units of two together to create each block. Follow the block diagram below for HST and fabric patch placement to create all fifty-six blocks needed to create this quilt.

You may need to trim up the block to achieve a 9.5" square block, depending on how accurate your cutting and sewing is!

**3.** Follow the layout in the main quilt image and the diagram above and below for block placement.

## Assembling the Reverie Quilt Top ::

Once all blocks are made and arranged into rows according to the diagrams and the above illustration, sew blocks into rows, then sew rows together, pressing seams as you go to reveal your beautiful quilt top!

To finish a quilt this size, made up of fifty-six blocks, measuring 64" x 72" you will need:

- 2/3 yard of quilt binding cut into 8 strips WOF (if binding strip width is 2.5")
- 4 1/4" yard of backing fabric
